

2006 off to a good start
First-quarter consolidated sales rise 31% to EUR 105.3 million

Pinguely-Haulotte posted net consolidated sales for 1Q2006 of EUR 105.3 million*, up from EUR 80.1 million for the same period in 2005. Europe accounted for 90% of this total.

The 31% growth in sales and the over 40% surge in orders logged in the first three months of 2006 underpin the buoyancy of our markets. These figures are consistent with the company's guidance on FY 2006.
